

CAPTURE PROVENANCE — page 2 is the vendor document

Gmail message id	1a02553cda83c11d
Mailbox	billing-gmail-admin (admin@heartwoodcustombuilders.com)
Sender	donotreply@dhpac.com, forwarded by Zack Sittler <zack@heartwoodcustombuilders.com>
Received	2026-08-21T17:17:12Z
MIME part	text/html
Body bytes	1402 (matches Gmail's reported part size exactly)
SHA-256 of body	a5c4b39e6f82439209f13877759bfedaacd8804c93b7c7c45a7d964954c95bd0
Retained at	2 - Cleaned Packets/_source-bytes/dhpac-LE302773.body.html

The vendor emailed an invoice in the message body with no PDF attachment. Page 2 is a render of **those body bytes**, unmodified. No wording on page 2 was authored or retyped by the reader. The retained .html beside this file is the exact input; re-rendering it reproduces page 2, and its SHA-256 is printed above.
