

CAPTURE PROVENANCE — page 2 is the vendor document

Gmail message id	1a021ce60f276a88
Mailbox	billing-gmail-admin (admin@heartwoodcustombuilders.com)
Sender	Adam Bruce <abruce3502@gmail.com>, forwarded by Zack Sittler <zack@heartwoodcustombuilders.com>
Received	2026-08-21T00:52:35Z
MIME part	text/html
Body bytes	869 (matches Gmail's reported part size exactly)
SHA-256 of body	121ac021ce50a8355a225d9515c063af3f336037c4b5a224d2cce05439ac2ae5
Retained at	2 - Cleaned Packets/_source-bytes/brucepiping-gaspipe.body.html

The vendor emailed an invoice in the message body with no PDF attachment. Page 2 is a render of **those body bytes**, unmodified. No wording on page 2 was authored or retyped by the reader. The retained `.html` beside this file is the exact input; re-rendering it reproduces page 2, and its SHA-256 is printed above.
